

# MARYLAND

## **“STRIVE FOR CLARITY, BUT ACCEPT AND UNDERSTAND AMBIGUITY.”**

That phrase captures one way in which an educated person approaches the world and its challenges. Students who graduate from the University of Maryland have been exposed to the tools that allow them to put that perspective to work. Imparting such a perspective may be an ambitious project for undergraduate education, but to aim for anything less would be unworthy of a great university's goals for its students. Thirteen years ago, Promises to Keep, a plan for undergraduate education at Maryland, articulated those goals so eloquently we repeat them here.

Undergraduate education at Maryland “aims to provide students with a sense of identity and purpose, a concern for others, a sense of responsibility for the quality of life around them, a continuing eagerness for knowledge and understanding, and a foundation for a lifetime of personal enrichment.”

As we learn with and from one another, we try to “develop human values,” “celebrate tolerance and fairness,” “contribute to the social conscience,” “monitor and assess private and collective assumptions,” and “recognize the glory, tragedy and humor of the human condition.”

Your years at the University of Maryland can provide you with all the tools you need to accomplish these goals. Students here are “educated to be able to read with perception and pleasure, write and speak with clarity and verve, handle numbers and computation proficiently, reason mathematically, generate clear questions and find probable arguments, reach substantiated conclusions and accept ambiguity.”

**AND WE ALSO HOPE YOU ENJOY THE JOURNEY.**

# THE UNIVERSITY OF MARYLAND

## THE CAMPUS

By virtually every measure of quality, the University of Maryland has gained national recognition as one of the fastest-rising comprehensive research institutions in the country. The momentum of recent years has poised the university to move it into the top ranks of higher education and take leadership in shaping the research university of the 21<sup>st</sup> century.

The university has enjoyed a decade of momentum in all of the areas that affect quality. The average high school GPA of entering students has zoomed from 3.01 to nearly 3.90, and the average SATs are now more than 1270. The student body is a model of diversity, with minorities making up more than 32 percent of all students, and at least one graduate and undergraduate student from every state in the nation.

The university has 79 graduate and undergraduate programs ranked in the Top 25 by U.S. News and World Report, up from just one program in 1991.

Sponsored research and outreach has nearly tripled in the same 10-year period, exceeding \$350 million last year. Private giving also has increased, and the university last year concluded its first campaign by topping its \$350 million goal by more than \$100 million. Alumni Association membership has been growing at an average rate of 10 percent a year since 1992.

One of the largest research universities in the United States, Fall 2004 enrollment was 25,140 undergraduate and 9,793 graduate students. There are 94 undergraduate programs, 89 master's programs, 70 doctoral programs and one first professional degree program. More than 100 centers and institutes are engaged in research and outreach.

Faculty at the University of Maryland, in all fields of knowledge, are engaged at the highest levels of national and international concern. The university's location near the center of federal policy-making and international political and economic activity enables it to play an active role in research and analysis of public policy.

Maryland is one of 30 public universities in the prestigious 63-member Association of American Universities and the only public institution in the Maryland-D.C. area with membership in the nation's most distinguished honor society, Phi Beta Kappa.

## DID YOU KNOW?

In 1991, Maryland had one program listed among Top 25 entrants in the *U.S. News & World Report* Rankings. Maryland now has 79 programs ranked among the nation's elite, and the university is ranked 18th nationally among public universities.

A report card published in *Technology Review* rated the top U.S. universities in their quest for intellectual property, commercial partners and profits. Johns Hopkins University and the University of Maryland (28th) were the Mid-Atlantic (Delaware, Maryland, Virginia, District of Columbia) schools to make the "campus patenting" top 50 list.

*Black Issues In Higher Education* ranked the university fourth nationally in bachelor's degrees earned by African-American students at traditionally white schools. Maryland ranks first in African-American undergraduate degrees in social sciences and history.

*The Wall Street Journal* ranked the Robert H. Smith School of Business No. 16 among the world's business schools. Maryland is the top-ranked school in the Mid-Atlantic region (Delaware, Maryland, District of Columbia, Virginia). *The Financial Times of London* ranked the Robert H. Smith School of Business No. 8 in information technology, No. 6 in faculty research and No. 7 in entrepreneurship.

In the undergraduate program rankings released by *U.S. News & World Report* both the A. James Clark School of Engineering (No. 17) and the College of Education (No. 22) were ranked among the top 25.

## DR. C.D. MOTE

UNIVERSITY PRESIDENT  
CALIFORNIA '59  
EIGHTH YEAR

In September 1998, C. D. (Dan) Mote, Jr. began his tenure as President of the University of Maryland and Glenn L. Martin Institute Professor of Engineering. He was recruited to lead the University of Maryland to national eminence under a mandate

by the state. Since assuming the presidency, he has encouraged an environment of excellence across the University and given new impetus to the momentum generated by a talented faculty and student body. Under his leadership, academic programs have flourished. In 2005, the University was ranked 18th among public research universities, up from 30th in 1998. President Mote has emphasized broad access to the university's model, enriched undergraduate curriculum programs and launched the Baltimore Incentive Awards Program to recruit and provide full support to high school students of outstanding potential who have overcome extraordinary adversity during their lives.

He has spurred the university to lead the state in the development of its high-tech economy, especially in the information and communication, bioscience and biotechnology, and nano-technology sectors. President Mote has greatly expanded the university's partnerships with corporate and federal laboratories and successfully negotiated to bring to the College Park area the first Science Research Park sponsored by the People's Republic of China. Under his leadership, the University has established a research park, The University of Maryland Enterprise Campus, M-Square, located on a 115-acre site adjacent to the University of Maryland/College Park Metro with 3 million square feet of development potential. Among its first tenants are the Center for Advanced Study of Language, a joint venture of the University and Department of Defense, and the National Oceanic and Atmospheric Administration's new World Weather and Climate Prediction Center.

During President Mote's second year in office, the University began the largest building boom in its history, with more than \$100 million in new projects breaking ground that year. New facilities address every aspect of university life, from the arts to recreation to classrooms and laboratories, and, in creative partnership with the private sector, new residential facilities. Highlights of the construction activity include the stunning Clarice Smith Performing Arts Center; the Comcast Center, a state-of-the-art sports complex; a high-tech research greenhouse; and new classrooms for chemistry, computer science, business and engineering. President Mote also led the development of a new Facilities Master Plan for development in the next 20 years, which is noted for its emphasis on environmental stewardship.

Dr. Mote is a leader in the national dialogue on higher education and his analyses of shifting funding models have been featured in local and national media. He has testified on major educational issues before Congress, representing the University and higher education associations on the problem of visa barriers for international students and scholars and on deemed export control issues. He has been asked to serve on a high level National Academies Committee appointed at the request of the Senate Energy Subcommittee of the Senate Energy and Natural Resources Committee to identify challenges to United States leadership in key areas of science and technology and to be a member of the Leadership Council of the National Innovation Initiative, an activity of the Council on Competitiveness. He has served as vice chair of the Department of Defense Basic Research Committee, and is a member of the Council of the National Academy of Engineering. In 2004-2005, he served as President of the Atlantic Coast Conference. In its last ranking in 2002, "Washington Business Forward" magazine counted him among the top 20 most influential leaders in the region.

He and his wife of over 40 years, Patricia Mote, have two married children, Melissa and Adam, and four grandchildren. Patsy Mote has continued her strong support of the arts and is spokesperson for the Clarice Smith Performing Arts Center and a member of Prince George's County Arts Commission.

## 2006 MARYLAND MEN'S LACROSSE

### DEBORAH A. YOW

#### ATHLETICS DIRECTOR • 12TH YEAR AT MARYLAND

Deborah A. Yow is in the 12th year of her outstanding tenure as director of athletics at the University of Maryland, a tenure that has seen unprecedented success and achievement in Maryland athletics. Each year has brought continued improvement

and accomplishment in Terrapin athletics. In Yow's 12 years at Maryland, the Terrapins have won a remarkable 11 NCAA national championships and graduated its student-athletes at an enviable rate, as Maryland athletics has soared to sustained new heights.

The comprehensive success of Terrapin athletics under Debbie Yow's leadership is a clear and compelling testimony of her values of excellence, teamwork and accountability.

Likewise, her prior election to the presidency of the National Association of Collegiate Directors of Athletics is an indication of the wide respect with which she is regarded among its 6,100 members representing 1,600 colleges and universities in the U.S. and Canada.

She was honored in December, 2004, by Street and Smith's Sports Business Journal as one of the 20 most influential people in intercollegiate athletics, and she has received the Carl Maddox Sport Management Award presented by the United States Sports Academy for excellence in athletics administration.

Yow was selected to serve on the U.S. Department of Education's Commission on Opportunities in Athletics to review the status of Federal Title IX regulations. She recently served as the chair of the Atlantic Coast Conference Committee on Television. The committee is charged with overseeing the league's TV contracts and dealing with issues related to television. Yow led the committee during the successful renegotiation of comprehensive, multi-year ACC football and basketball contracts with ABC, ESPN, ESPN2 and syndication entities.

Additionally, she has represented intercollegiate athletics with presentations in a number of prominent settings such as the Harvard University School of Law conference on "Shaping the Future of Collegiate Athletics" and the Street and Smith's Sports Business Journal "National Forum on the Direction of Intercollegiate Athletics." She was also recently inducted into the State of Maryland Women's Hall of Fame.

Yow, who has served on the NCAA Management Council and the NCAA Division I Budget Committee, is a strong and steady voice on behalf of intercollegiate athletics in America.

Since taking over as AD at Maryland in 1994, she and her staff have:

- Transformed Terrapin athletics into a responsive, goal-oriented organization.
- Balanced all 11 of the department's annual budgets (the first balanced budgets in the 10 years prior to her arrival). The budget has now reached \$50 million annually and the multi-million

dollar accumulated operating debt which her administration inherited has been eradicated.

- Greatly enhanced the academic support services provided for student-athletes, with an enviable exhausted eligibility graduation rate of approximately 85 percent for student athletes at Maryland.
- Led the Terrapins to a national all-sports ranking in the upper 7 percent of all NCAA Division I institutions.
- Significantly expanded marketing and fund-raising efforts on behalf of Terrapin athletics. As a result, private gifts to athletics have increased over 350 percent and corporate sponsorship revenues have increased by over 300 percent during her tenure at Maryland.
- Continued to dramatically improve venues and facilities for the department's 27 teams. The Comcast Center for men's and women's basketball and other sports that use the facility is a prime example of the dramatic upgrade of athletic facilities.
- Implemented a strategic management model.
- Developed a comprehensive Internet strategy with management, marketing and fund-raising applications.
- Significantly improved customer care in every area of Maryland athletics.

The most recent achievements of Maryland athletics are exceptional:

- Maryland was selected by U.S. News & World Report as one of the Top 20 athletic programs in the nation (for overall quality and competitive excellence).
- In men's basketball, the Terps won the Atlantic Coast Conference title over Duke in the championship game in 2004 and won the NCAA National Championship in 2002. Under Coach Gary Williams, the men's basketball team has appeared in 11 of the last 12 NCAA Tournaments, one of only six schools to do so.
- Women's basketball also won its way to the NCAA Tournament in 2004 and 2005, advancing to the second round.
- In football, the Terps won the 2001 Atlantic Coast Conference championship and played in the 2002 Orange Bowl, followed that with an 11-win season and a 30-3 victory over the University of Tennessee in the Peach Bowl, again followed by a 10-win season and a 41-7 win over West Virginia in the Gator Bowl on New Year's Day 2004. Additionally, Maryland is one of only six universities to win a National Championship in both basketball and football (UCLA, Michigan, Michigan State, Syracuse, Ohio State and Maryland).

**IN DECEMBER OF 2004, DEBORAH A. YOW WAS NAMED ONE OF THE MOST INFLUENTIAL PEOPLE IN COLLEGE ATHLETICS BY STREET & SMITH'S SPORTS BUSINESS JOURNAL.**

*Dr. Yow with former Terp student-athletes Boomer Esiason (left), Bonnie Bernstein (center) and Steve Francis (right).*

# FEAR THE TURTLE

## 2006 MARYLAND MEN'S LACROSSE

- Maryland was ranked as the sixth-finest athletic program in the nation by the Laboratory for the Study of Intercollegiate Athletics in 2004, based on comprehensive criteria such as graduation rates, financial efficiency, equity effectiveness and competitive excellence.
- Hired the Associated Press National Coach of the Year, Brenda Frese, as the new women's basketball coach. In her third season at the helm, her team drew more than 17,243 to a regular-season game and advanced to the NCAA Tournament.
- Hired Dave Cottle, the third-winningest active men's lacrosse coach in the U.S., who guided his team to the NCAA Final Four in his second year.
- Men's Soccer won the NCAA national championship in 2005 and has made four consecutive appearances in the NCAA College Cup.
- Field Hockey won the NCAA national championship in 2005 and continues to be a perennial Final Four team.
- Women's Lacrosse has continued its winning ways with seven national championships from 1995-2001, with additional Final Four appearances.
- Football facilities have been significantly enhanced with team house, stadium and practice field upgrades. The Academic Center was the first improvement, as it took priority over all other initiatives.
- The Terrapins have moved into the new \$125 million Comcast Center, housing athletic department offices and seating for 18,000 fans for basketball and other events.
- In 2004-05, 18 Maryland teams competed in NCAA postseason play.
- The productivity, morale, and the competitive and academic achievement of Terrapin athletics are exceptional and continue to gain momentum.

Regarding the many achievements of Terrapin athletics over the past 11 years, Yow says, **"We are pleased, but we are not satisfied... our vision is to be one of the Top 5 programs in the nation consistently... we see no reason to settle for less."**

Yow is known for her goal-oriented and proactive management style. She consistently inspires and challenges those around her to **"raise our sights and sharpen our tools... to work hard and smart... to recognize that our only limitations are those that we place upon ourselves."**

As a manager and a leader, she clearly models these principles. She is the only known current AD in NCAA Division I who has hired both the National Coach of the Year in football (while at Maryland) and the National Coach of the Year in men's basketball (while at Saint Louis University). Yow is known as "a coach's AD," while also being highly organized and a strategic and proactive leader and administrator. Quite simply, Debbie Yow personifies the relational and management dynamics that are necessary to be an excellent administrator.

A successful former basketball coach at the University of Kentucky and University of Florida, she moved into athletics administration at the University of Florida and the University of North Carolina, Greensboro, followed by a successful tenure as AD at Saint Louis University from 1990 through 1994.

She has authored numerous articles and books on athletics management and human behavior, and is a respected leader in intercollegiate athletics in the United States.

Summing up the entire Maryland athletics program, our athletics director recently stated, "We have the finest student-athletes, coaches, support staff and administrative team in America. It is because of their courage, hard work and cooperative spirit that we now have a strong, viable athletic program. I am immensely proud of each of them. I am equally proud of our Terrapin fans who buy tickets, our Terrapin Club members who faithfully support the Maryland athletic program with their donations for scholarships, and the M Club members who serve and give liberally. We are also blessed with a terrific President, Dr. Dan Mote, who has fostered a mindset of excellence across our institution. He is a strong and balanced advocate for what he calls 'the three A's of the University -- Academics, the Arts and Athletics'. We have a great Terrapin family. That's the foundation for all of our success... and the basis for our bright future. It's a great time to be a Terp."

### SHAWN FLYNN

#### ASSOCIATE ATHLETICS DIRECTOR/MEN'S LACROSSE SUPERVISOR

Shawn Flynn is in his fourth year as associate athletics director for internal operations. He is responsible for overseeing men's lacrosse, men's soccer, men's and women's track and field, men's and women's cross country, and women's water polo.

An active administrator at the conference and national levels, Flynn is currently the Vice Chair of the ACC men's soccer committee and the Chair of the ACC men's lacrosse committee. In 2005 he begins a four-year term on the NCAA men's lacrosse committee. In 2004 he served as Chair of the ACC men's and women's swimming and diving committee.

Flynn came to Maryland in 1988 as a graduate assistant for Intramurals and Sports Clubs with Campus Recreation Services. In 1990 he was hired as the Campus Recreation Coordinator for Facilities and Sports Clubs. In that role he administered a 25-club Sport Club Program in addition to establishing a First-Aid/CPR program. In 1994 his responsibilities expanded when he was promoted to assistant director for facilities and sports clubs.

Two years later Flynn was promoted to associate director for facilities. He played an integral role in the development, opening and operation of two major facility initiatives, the Campus Recreation Center and Ritchie Coliseum. Flynn served as the department liaison with various campus departments and worked with university committees and working groups. Flynn was the event director for the 1999 and 2000 FINA United States Swimming World Cup.

In addition to his work at Campus Recreation Services, Flynn served as the site director for the Nationals Futures Tournament/Super Camp for the United States Field Hockey Association since 1996. He was also a member of the 2000 U.S. Swimming Olympic Trials event team and has assisted the Washington Regional 2012 Coalition.

Flynn earned his bachelor of arts degree in business/economics from the University of Pittsburgh at Johnstown in 1988. He went on to earn a master's in kinesiology with a concentration in sport management from the University of Maryland in 1992.

Flynn and his wife Debbie have two children, Shane and Matthew.

# FEAR THE TURTLE

## 2006 MARYLAND MEN'S LACROSSE

# ACADEMIC SUPPORT AND CAREER DEVELOPMENT

The University of Maryland is committed to providing the highest quality education to all of its students. The Department of Intercollegiate Athletics strives to provide student-athletes excellent opportunities to participate in an intercollegiate athletics program of the highest quality, with the result that their athletics participation becomes an integral and valued component of their total educational experience at the university.

Terrapin student-athletes will find that the same hard work and discipline that has earned them success in athletics competition is also required in the classroom. Balancing the significant time demands and responsibilities required to be a successful student-athlete at the highest collegiate level is no small task. Therefore, as a result of their commitment to representing the university through athletics, Terrapin student-athletes are able to utilize support programs designed to meet their specific needs.

Led by assistant athletics director Anton Goff, the mission of the Academic Support and Career Development Unit (ASCDU) is to provide quality developmental programs and need-based services that will enhance academic progress, facilitate career development, and encourage the psychosocial growth of all UM student-athletes. **Dena Freeman-Patton** (right) works with the men's lacrosse team.

The Gossett Academic Support and Career Development Center for Terrapin student-athletes, named for long-time Terp supporters Barry and Mary Gossett, is located in the Comcast Center. It features a study center that includes 25 desktop computers, a tutoring center, a classroom, a CHAMPS/Life Skills resource room and individual offices for six professional academic counselors, a director of ILP programs, an assistant program coordinator and two graduate assistants. In addition, a new academic wing was added to the Gossett football team house last Fall. It features offices for two counselors, three learning specialist, and a graduate assistant; as well as a quiet study area, 29-desk computer lab, classroom, tutor rooms and classroom/lab for the individualized learning program.

**Academic courses, programs and services offered by ASCDU include the following:**

- Student-athlete orientation
- Academic counseling
- NCAA academic eligibility monitoring
- Academic enrichment and career development presentations and workshops
- Accredited tutorial support
- Individualized learning program
- EDCP 108-K (College learning strategies and skills)
- EDCP 108-M (Math learning strategies and skills)
- UNIV 100 (First-year transitions to the university)

### MARYLAND GAMEPLAN

The Maryland Gameplan is intended to assist graduating Terrapin student-athletes as they begin the job search process. It is distributed to more than 500 corporations and businesses across the country, in addition to being featured on the M Club website. Prospective employers are introduced to our graduating student-athletes with resume information relative to academic, career and personal achievements. The Maryland Gameplan directory is produced annually in collaboration with the M Club.

### CAREER NETWORKING NIGHT

Because career development is an ongoing process, ASCDU provides a variety of programs for student-athletes throughout the year. Professional assistance with resume-writing, interviewing skills, graduate school search and job search is readily available to all student-athletes. During the spring semester ASCDU hosts the Career Networking Night, where student-athletes can learn about career interests and career planning. Unlike typical "job fairs," the purpose of this program is to allow student-athletes to explore multiple career opportunities by speaking directly to individuals in their chosen areas of interest. Employers at the Career Networking Night recognize the marketable qualities student-athletes have gained through athletic participation. Student-athletes learn about opportunities for internships and full-time jobs.

### STUDENT-ATHLETE ADVISORY COUNCIL

The Student-Athlete Advisory Council (S.A.A.C.) plays an important role in the Department of Intercollegiate Athletics. It consists of two representatives from each varsity sport and meets on a regular basis with representatives from the athletic administration. The S.A.A.C. mission is to enhance the total student-athlete experience by developing leadership skills, promoting student-athlete welfare and fostering a positive student-athlete image on the Maryland campus, local area and nationally.

### CHAMPS/LIFE SKILLS PROGRAMS

ASCDU houses the NCAA's (National Collegiate Athletic Association) Challenging Athletes' Minds for Personal Success (C.H.A.M.P.S.) Life Skills Program. The ASCDU staff, in collaboration with various other Department of Intercollegiate Athletics' units and campus resources, strives to provide a systematic personal development program designed to reach each student-athlete based on his or her individual needs. The focus of the program is on the individual academically, athletically and emotionally, and on the changing needs and skills of that individual in the years during college and after graduation. The menu of presentations, workshops and seminars is a comprehensive and balanced system of "life learning" programs promoted for use by each varsity sport team.

### HIGHLIGHTS OF THE CHAMPS/LIFE SKILLS PROGRAMS:

- Support efforts of every student-athlete toward intellectual development and graduation
- Use athletics as preparation for success in life
- Meet the changing needs of student-athletes
- Promote respect for diversity among student-athletes
- Enhance interpersonal relationships in the lives of student-athletes
- Assist student-athletes in building positive self-esteem
- Enable student-athletes to make meaningful contributions to their communities
- Promote ownership by the student-athletes of their academic, athletic, personal and social responsibilities
- Enhance partnerships between the NCAA, member institutions and their communities for the purpose of education
- Encourage the development of leadership skills

### CHAMPS/LIFE SKILLS PROGRAMS COMMITMENT STATEMENTS

**Commitment to Academic Excellence** To support the academic progress of the student-athlete toward intellectual development and graduation.

**Commitment to Athletic Excellence** To build philosophical foundations for the development of athletic programs that are broad-based, equitable and dedicated to the well-being of the student-athlete.

**Commitment to Personal Development** To support the development of a well-balanced lifestyle for student-athletes, encouraging emotional well-being, personal growth and decision-making skills.

**Commitment to Career Development** To encourage the student-athlete to develop and pursue career and life goals.

**Commitment to Service** To engage student-athletes in service to his/her campus and surrounding communities.

### ACADEMIC SUPPORT FOR RETURNING ATHLETES PROGRAM

The Academic Support for Returning Athletes Program was created in 1986 to support the academic efforts of former varsity student-athletes at the University of Maryland, College Park. In 1989, ASRAP was assigned by the President's Office to the Academic Achievements Program and enrolled 40 students that year. As a member of the National Consortium for Academics and Sports (NCAS), the University of Maryland is committed to assisting its former athletes with degree completion. A key component of the program is community outreach. Each returning student completes a "workshop" that allows the cost of tuition and fees to be exchanged for community services with youth. In 2002, ASRAP moved into the ASCDU.

*"With the Crankshaft, you feel more ball and less stick. It's like holding the ball in the palm of your hand...and that's what you want for more control and quicker shots."*

- Gary Galt

*"It feels so comfortable in your hands and you don't need an extreme windup to crank a harder shot."*

- Tom Marechek

*"Players that use this stick are going to have a real advantage. It's going to make life a lot tougher for goalies."*

- Jim Moss

*The Kannon and the Crankshaft have the lacrosse world talking. That's because this stick feels different from the moment you pick it up. The 10-degree canted head and handle create a complete stick that feels lighter, face balances faster and sets up a quicker release. When you're cradling, passing or cranking a shot, you really feel the ball, so you can move it around the field faster than ever before.*

*For years the best players in the world have been trying to engineer a stick that can do all this. The players at STX have actually made it work.*

# ATLANTIC COAST CONFERENCE

### THE TRADITION

Consistency. It is the mark of true excellence in any endeavor.

However, in today's intercollegiate athletics, competition has become so balanced and so competitive that it is virtually impossible to maintain a high level of consistency.

Yet the Atlantic Coast Conference has defied the odds. Now in its 53rd year of competition, the ACC has long enjoyed the reputation as one of the strongest and most competitive intercollegiate conferences in the nation. And that is not mere conjecture, the numbers support it.

Since the league's inception in 1953, ACC schools have captured 94 national championships, including 49 in women's competition and 45 in men's. In addition, NCAA individual titles have gone to ACC student-athletes 119 times in men's competition and 61 times in women's action.

Since the inception of women's basketball in the ACC in 1977, a tradition of excellence has been established.

Over the years, ACC women's basketball teams have gained global recognition through their television exposure. The 2005-06 schedule features 40 televised games, including 11 national telecasts (six games on Fox Sports Net and affiliates and five on ESPN2). In addition, 29 match-ups will be featured on the league's regional sports network which includes Comcast SportsNet, Fox Sports Net South and Sun Sports. In all, the ACC will make 75 television appearances this season.

The league's women's basketball programs rank among the best in the country in terms of the NCAA Tournament, having made 103 appearances and won 137 games in the last 28 years, 11 of them as a number one seed. The league boasts such national accomplishments as sending at least one team to the "Sweet 16" for 17 consecutive years. The conference has also made ten trips to the Final Four in the last 24 years with two teams finishing second and North Carolina capturing the National Championship in 1994.

Since 1989, the ACC has placed nine players on the All-Final Four team, including Staley and Smith, who were dubbed Most Outstanding Players. In all, 50 ACC players have been named to NCAA Tournament All-Region teams, with eight Most Outstanding Player recognitions.

Three players have garnered national player of the year accolades while competing under the ACC banner. Virginia's Dawn Staley was a back-to-back selection in 1991 and 1992, while North Carolina's Charlotte Smith received the ESPY award in 1995. Duke's Alana Beard was recognized with national player of the year honors in both 2003 and 2004.

Five league coaches have combined to earn 11 national coach of the year awards. Duke's Gail Goestenkors, North Carolina's Sylvia Hatchell, Virginia's Debbie Ryan, Maryland's Chris Weller and NC State's Kay Yow have all garnered national recognition.

Seven ACC representatives, including coaches and student-athletes, have participated in the Olympics. NC State's Kay Yow, assisted by Sylvia Hatchell of North Carolina, headed up the 1988 gold medal-winning Olympic team. Maryland's Vicky Bullett was a member of both the 1988 and 1992 Olympic teams. Three-time Olympian and Virginia graduate, Dawn Staley struck gold in Athens as a member of the 2004 Olympic squad. Duke's Gail Goestenkors served as an assistant coach on the gold-medal winning team in Athens.

Since the inaugural season of the Women's National Basketball Association in 1997, the ACC has been a recognizable presence in the league. Forty-three former ACC stars have played on the hardwood in the WNBA, while five former players have worked the sidelines as coaches.

The ACC also stands at the forefront of intercollegiate athletics in terms of the academic accomplishments of its student-athletes. Since 1983, 381 women's basketball players have received ACC Academic Honor Roll recognition. The 2003-04 academic year included 39 selections. In addition, ACC women's basketball players have earned first-team Academic All-America honors six times, including Virginia's Val Ackerman in 1981, the former President of the WNBA. In 1997, NC State's Jennifer Howard was tabbed GTE CoSIDA Academic Player of the Year

after posting a 4.0 grade point average throughout her career. Thirteen players have earned ACC postgraduate scholarships, while three others were named NCAA Postgraduate Scholars.

### 2004-05 IN REVIEW

The 2004-05 academic year concluded with the league pocketing three more national team titles and seven individual NCAA crowns. In all, the ACC has won 51 national team titles over the last 15 years.

The ACC's 2004-05 national champions were Wake Forest in field hockey, North Carolina in men's basketball and Duke in women's golf. In addition, a total of 181 student-athletes from the ACC earned first, second or third-team All-America honors this past year.

### THE CHAMPIONSHIPS

The conference will conduct championship competition in 25 sports during the 2005-06 academic year - 12 for men and 13 for women.

The first ACC championship was held in swimming on February 25, 1954. The conference did not conduct championships in cross country, wrestling or tennis during the first year.

The 12 sports for men include football, cross country, soccer, basketball, swimming, indoor and outdoor track, wrestling, baseball, tennis, golf and lacrosse. Fencing, which was started in 1971, was discontinued in 1981.

Women's sports were initiated in 1977 with the first championship meet being held in tennis at Wake Forest University.

Championships for women are currently conducted in cross country, volleyball, field hockey, soccer, basketball, swimming, indoor and outdoor track, tennis, golf, lacrosse, softball and rowing.

### A HISTORY

The Atlantic Coast Conference was founded on May 8, 1953, at the Sedgefield Inn near Greensboro, N.C., with seven charter members - Clemson, Duke, Maryland, North Carolina, North Carolina State, South Carolina and Wake Forest - drawing up the conference by-laws.

The withdrawal of seven schools from the Southern Conference came early on the morning of May 8, 1953, during the Southern Conference's annual spring meeting. On June 14, 1953, the seven members met in Raleigh, N.C., where a set of bylaws was adopted and the name became officially the Atlantic Coast Conference.

Suggestions from fans for the name of the new conference appeared in the region's newspapers prior to the meeting in Raleigh. Some of the names suggested were: Dixie, Mid South, Mid Atlantic, East Coast, Seaboard, Colonial, Tobacco, Blue-Gray, Piedmont, Southern Seven and the Shoreline.

Duke's Eddie Cameron recommended that the name of the conference be the Atlantic Coast Conference, and the motion was passed unanimously. The meeting concluded with each member institution assessed \$200.00 to pay for conference expenses.

On December 4, 1953, conference officials met again at Sedgefield and officially admitted the University of Virginia as the league's eighth member. The first, and only, withdrawal of a school from the ACC came on June 30, 1971, when the University of South Carolina tendered its resignation.

The ACC operated with seven members until April 3, 1978, when the Georgia Institute of Technology was admitted. The Atlanta school had withdrawn from the Southeastern Conference in January of 1964.

The ACC expanded to nine members on July 1, 1991, with the addition of Florida State University.

The conference expanded to 11 members on July 1, 2004, with the addition of the University of Miami and Virginia Polytechnic Institute and State University. On October 17, 2003, Boston College accepted an invitation to become the league's 12th member starting July 1, 2005.

## MEDIA INFORMATION

### MEDIA GUIDELINES

**Credentials:** Media and photographer credentials for events at Byrd Stadium may be obtained by working press, radio and television by writing or calling Patrick Fischer in the Maryland Athletic Media Relations Office, 2725 Comcast Center, College Park, MD 20741-0295. All requests should be submitted at least 48 hours prior to the event by phoning the Media Relations Office at (301) 314-7062. Since space is limited, accommodations are on a priority basis: daily newspapers and wire services, originating radio and television stations, national weekly or monthly publications, electronic media outlets, local and regional television crews. Priority is granted to members of the media who cover Maryland athletics on a regular basis, and to visiting media members. Photo passes will be issued only to accredited photographers on assignment.

**Services:** The Media Relations Office will provide complete statistics at the conclusion of every home game. Programs containing rosters and event notes on each team will be provided for the working media.

**Press Box:** The press box is located on the south side of Byrd Stadium in Tyser Tower. Access to Level 3 (print) and Level 4 (radio, television booths) is via elevators.

**Fax Machine:** The Media Relations Office has one facsimile machine, located in Room 2725 of Comcast Center, which is available upon request. The fax number is (301) 314-9094.

**Telephones:** A limited number of telephones are available in the Tyser Tower Press Box (calling card required). Any additional telephone requests should be directed to Josh Kaplan, Director of Operations and Facilities, at 301-314-9729. List Patrick Fischer as the contact person for all installations.

**Terps on the Web:** For up-to-date game stories, statistics, schedules and results, and other Maryland athletic department information, please locate [www.umterps.com](http://www.umterps.com) on the Internet.

**E-mail Service:** Men's Lacrosse releases can be obtained electronically by contacting Patrick Fischer at [pfischer@umd.edu](mailto:pfischer@umd.edu). List TERP NEWS in the subject heading.
