

# LEADING THE WAY INTO THE 21ST CENTURY

- A Carnegie Research-I University
- Member, Assoc. of American Universities (AAU)
- Flagship of the University System of Maryland
- NCAA Division I Athletics

*“Strive for clarity, but accept and understand ambiguity.”*

That phrase captures one way in which an educated person approaches the world and its challenges. Students who graduate from the University of Maryland have been exposed to the tools that allow them to put that perspective to work. Imparting such a perspective may be an ambitious project for undergraduate education, but to aim for anything less would be unworthy of a great university's goals for its students. Thirteen years ago, Promises to Keep, a plan for undergraduate education at Maryland, articulated those goals so eloquently we repeat them here.

Undergraduate education at Maryland “aims to provide students with a sense of identity and purpose, a concern for others, a sense of responsibility for the quality of life around them, a continuing eagerness for knowledge and understanding, and a foundation for a lifetime of personal enrichment.”

As we learn with and from one another, we try to “develop human values,” “celebrate tolerance and fairness,” “contribute to the social conscience,” “monitor and assess private and collective assumptions,” and “recognize the glory, tragedy and humor of the human condition.” Your years at the University of Maryland can provide you with all the tools you need to accomplish these goals. Students here are “educated to be able to read with perception and pleasure, write and speak with clarity and verve, handle numbers and computation proficiently, reason mathematically, generate clear questions and find probable arguments, reach substantiated conclusions, and accept ambiguity.”

And we also hope you enjoy the journey.

# UNIVERSITY OF MARYLAND

## The Campus

The University of Maryland, College Park is the most comprehensive institution of higher education, research and service in the state. The university offers 100 undergraduate majors, 88 master's programs and 69 doctoral programs in 13 colleges and schools.

The university is one of only 30 public research universities that are members of the prestigious 58-member Association of American Universities. It is classified as a Research-I university by the Carnegie Foundation by virtue of the range of its baccalaureate programs, the amount of federal support received and the number of doctoral degrees awarded each year, sharing that honor with the top research universities in the country.

Among the public universities in the Association of American Universities, Maryland ranks among the top in percentage of African-American undergraduate students. In addition, the university has the largest number of African-Americans and other minority members among its peers.

## Flagship Status

In 1988, the University of Maryland, College Park was designated as the flagship institution for the University System of Maryland. As well as pursuing a serious research mission and continuing its high level of service to the state, the university re-dedicated itself to providing the highest quality graduate and undergraduate education. Increased undergraduate opportunities for research and individual study; the development of the College Park Scholars Program and the expansion of the University Honors Program; the genesis of Honors Humanities and Gemstone; the creation of CORE, the general education program; and the establishment of the Center for Teaching Excellence all affirmed the legislature's designation of flagship.

## Libraries

Seven libraries make up the University of Maryland library system: McKeldin (main) Library, Architecture Library, Art Library, Engineering and Physical Sciences Library, Hornbake Library, Performing Arts Library, White Memorial (Chemistry) Library.

These libraries constitute the largest university research library institution in the Washington metropolitan area, providing vital resources to researchers, visiting scholars, and businesses throughout the region. The libraries' holdings include more than 2.5 million volumes, 24,000 subscriptions to periodicals and nearly 5 million items available in microfilm format.

## Research

Opportunities for conducting research abound at the University of Maryland, College Park, and in the surrounding area, both for faculty to advance their own expertise and bring their insights into the

classroom, and for students to begin their exploration of their special interests with practical experience. On campus, special facilities and a number of organized research centers, bureaus, and institutes promote the acquisition and analysis of new knowledge in the arts, sciences and applied fields.

The university's enviable location — just nine miles from downtown Washington, D.C., and approximately 30 miles from both Baltimore and Annapolis — enhances the research of its faculty and students by providing access to some of the finest libraries and research centers in the country.

## Service

Programs of public service are central to the overall mission of the university. The philosophy is reflected in the wide array of programs and initiatives that benefit the state's business, agriculture and education communities.

With more than 90 high technology firms in the three-county area of Montgomery, Prince George's and Frederick counties, the university has found abundant opportunity to extend its business and technology outreach programs to the region. Many of these programs are part of the Engineering Research Center, which operates the Technology Advancement Program and the Maryland Industrial Partnerships, programs designed to provide Maryland entrepreneurs and small businesses with research facilities, technical assistance, administrative support, and access to technology that will advance their economic base.

The Institute for Systems Research has formed partnerships with major corporations, including Lockheed Martin, Westinghouse, BF Goodrich, Hughes Aircraft and Dupont to apply advanced systems research to solving industry problems in the fields of communications, manufacturing, controls and robotics.

The University of Maryland features a diversity of cultural and recreational activities. Four art galleries, more than 200 annual musical performances and countless dance and theater productions, expose audiences to the broadest range of programs in the arts. Additionally intercollegiate, club and intramural sports provide students of all levels an opportunity to participate as spectators or athletes.

## A Wired World

Students at the University of Maryland are part of an academic community that enjoys free access to networked computer resources and facilities that are among the best in the country. Free computer accounts enable users to store class work on a networked server, download classroom support materials and other electronic information from campus networked resources such as inforM, or send electronic mail to faculty, fellow students or friends at other universities.

## C.D. MOTE JR.

University

President

When C.D. "Dan" Mote Jr. became the 19th president of the University of Maryland on Sept. 1, 1998 he proclaimed it a university "on the move." Three years later, under his guidance, Maryland continues to move — at an ever accelerating rate — on the field, in the classroom, in the community, and in the world.

The University of Maryland is the state of Maryland's most important asset, says Mote: "The future of the state depends on this university."

Fulfilling that responsibility is a big job, but it's a role that Mote is accustomed to, having spent his entire academic career at the University of California at Berkeley, where he earned all his degrees, taught engineering and eventually became vice chancellor for University Relations before coming to Maryland.

One of Mote's first tasks here was to serve on a governor's task force to examine the funding and organization of the University System of Maryland. The result was a 1999 law reaffirming the university's flagship status and a commitment to become one of the best public universities in the nation.

As president, Mote is committed to achieving that goal by creating a culture of excellence and civility across the campus, continuing to emphasize the highest quality education for students, strengthening the university's internal and external connections, and achieving distinction as an institution where discovery takes place every day and everywhere.

The university's progress in each of these areas can be measured by the quality of its programs; the stature of its faculty; the talent of its students; partnerships with business; impact on the state's economy; its ability to apply discoveries to global, national and regional problems; and its world-class, state-of-the-art facilities.

### Examples:

- Maryland has 60 programs ranked in the top 25 nationally by *U.S. News and World Report*.
- The faculty includes a Nobelist, six Pulitzer Prize winners and nearly two dozen members of the national academies in their fields.
- The average GPA of entering students improved from 3.00 to 3.72 from 1990 to 2000, while the average SAT score rose from 1173 to 1244.
- In the past year, the university helped to attract Fujitsu Laboratories of America to open a research facility in College Park and helped to establish the Joint Global Change Research Institute, a research partnership between the university and the Pacific Northwest National Laboratory.
- In FY 2001, the university received more than \$300 million in research grants and outreach funding.
- The university is adding spectacular new facilities such as the Clarice Smith Performing Arts Center; the Comcast Center, scheduled to open in 2002; and new classrooms for chemistry, computer science, business and engineering; extensive renovations to the Adele Stamp Student Union; and new parking structures.

Under Dan Mote's leadership, Maryland today is truly the state's greatest asset.

# ATHLETICS DIRECTOR DEBORAH A. YOW

*Eighth Year at Maryland*

Dr. Deborah A. Yow is in the eighth year of her outstanding tenure as director of athletics at the University of Maryland ... a year in which she also successfully concluded her presidency of the National Association of Collegiate Directors of Athletics, an organization with a membership of more than 6,100 athletic administrators representing 1,600 colleges and universities in North America and Mexico.

The comprehensive success of Terrapin athletics under Debbie Yow's leadership is a clear and compelling testimony to her values of excellence, teamwork and accountability. Likewise, her election to the presidency of NACDA is an indication of the respect with which Dr. Yow is regarded in intercollegiate athletics and education in the U.S. and Canada.

Last year, Yow was named Female Sports Executive of the Year by the editors of *Street & Smith's Sports Business Journal*. In addition, she received the Carl Maddox Sport Management Award by the United States Sports Academy for excellence in athletics administration.

As a former member of the NCAA Management Council and NCAA Division I Budget Committee, Yow presented a strong voice for excellence and integrity at the highest levels of intercollegiate athletics. In these national roles she has represented the University of Maryland and the Atlantic Coast Conference with a balanced and proactive voice.

Since taking over at Maryland in 1994, she and her staff have:

- Transformed Terrapin athletics into a responsive, goal-oriented organization.
- Balanced all seven of the department's annual budgets (the first balanced budgets for the Terrapins in 10 years prior to her arrival). The budget has now reached \$33 million annually and the sizable prior debts have been eradicated.
- Greatly enhanced the academic support services provided to student-athletes, with an enviable exhausted eligibility graduation rate of nearly 90 per-

cent during her tenure.

- Led the Terrapins to a national all-sports ranking in the upper 15 percent of all NCAA Division I institutions.
- Significantly expanded marketing and fund-raising efforts on behalf of Terrapin athletics. As a result, private gifts to athletics have increased 140 percent and corporate sponsorship revenues have increased by 275 percent during her tenure at Maryland.
- Continued to dramatically improve venues and facilities for the department's 25 teams.
- Implemented a strategic management model.
- Developed a comprehensive Internet strategy with management, marketing and fund-raising applications.
- Significantly improved customer care in every area.

The Maryland Department of Athletics has made remarkable progress under Yow's leadership. Regarding the many achievements of Terrapin athletics over

the past seven years, Dr. Yow says, "We are pleased, but we are not satisfied ... our vision is to be one of the top 10 programs in the nation consistently ... we see no reason to settle for less."

Yow is known for her goal-oriented and proactive management style. She consistently inspires and challenges those around her to "raise our sights and sharpen our tools ... to work hard and work smart ... to recognize that our only limitations are those that we place upon ourselves."

As a manager and leader, she clearly models these principles. She was recently singled out by *Street & Smith's Sports Business Journal* as one of the leading athletic administrators in the U.S.

A former basketball coach, she began her coaching career at the high school level in North Carolina before taking over as head

women's coach at the University of Kentucky in 1976. She also achieved an outstanding coaching record as head coach at the University of Florida. She later moved into athletic administration at the University of Florida and the University of North Carolina-Greensboro, followed by a highly successful tenure as A.D. at Saint Louis University.

She has authored numerous articles and books on athletics, management and human behavior, and is a respected leader in intercollegiate athletics in the United States.

Summing up the entire Terrapin athletic program, Yow recently observed, "We have the finest student-athletes, coaches, support staff and administrative team in America. It is because of their courage, hard work and cooperative spirit that we now have a strong, viable athletic program. I am immensely proud of each of them. I am equally proud of our Terrapin fans who buy tickets and our Terrapin Club members who faithfully support the Maryland athletic program with their donations for scholarships, and the Maryland Educational Foundation and M Club members who serve and give liberally. We have a great Terrapin family. That's the foundation for all of our successes ... and the basis for our bright future."

Maryland athletics director Deborah A. Yow was recently awarded the Carl Maddox Sport Management Award by the United States Sports Academy.

## WOMEN'S SOCCER SPORT SUPERVISOR

### KATHLEEN WORTHINGTON

Sr. Associate A.D./Internal Operations

Kathleen Worthington was named associate athletics director for internal operations in May 1999. She came to Maryland from Morehead State University, where she had served as associate A.D. since February 1998 after spending two years as an assistant athletics director. She was promoted to senior associate athletic director in August.

At Maryland, Worthington is responsible for supervision of baseball, volleyball, women's basketball, and men's and women's soccer. She also oversees facilities/operations units.

During her time at Morehead State, her primary focus was business operations, policy development, and strategic planning. Prior to Morehead State, Worthington spent two years as the assistant to the A.D. at the University of Wisconsin-LaCrosse.

She also has served as a marketing and media relations specialist and as director of athletics and community youth programs for Catholic Charities in New York state.

She earned her bachelor's degree in mass communications from the College of Notre Dame in Maryland in 1985. She earned a master's degree in public relations from Syracuse and a master's in athletics administration from Wisconsin-LaCrosse.

She was inducted into College of Notre Dame's Athletic Hall of Fame in 1997 and in 1999 was named an NCAA Leadership Fellow. In 1996, she earned the graduate student achievement award from UW-LaCrosse.

# ACADEMIC SUPPORT & CAREER DEVELOPMENT

The University of Maryland is committed to providing the highest quality education to all of its students. The Department of Intercollegiate Athletics strives to provide student-athletes excellent opportunities to participate in an intercollegiate athletics program of the highest quality, with the result that their athletics participation becomes an integral and valued component of their total educational experience at the university.

Terrapin student-athletes will find that the same hard work and discipline that has earned them success in athletics competition is also required in the classroom. Balancing the significant time demands and responsibilities required to be a successful student-athlete at the highest collegiate level is no small task. Therefore, as a result of their commitment to representing the university through athletics, Terrapin student-athletes are able to utilize support programs designed to meet their specific needs.

Led by associate athletics director Robert Koonce, the mission of the Academic Support and Career Development Unit (ASCDU) is to provide quality developmental programs and need-based services that will enhance academic progress, facilitate career development, and encourage the psychosocial growth of all UM student-athletes.

The Gossett Academic Support and Career Development Center for Terrapin student-athletes, named for long-time Terp supporters Barry and Mary Gossett, is located in Cole Field House. It features a study center that includes 24 desktop computers, private study cubicles, a tutoring center, classrooms, and individual offices for four professional academic counselors, a learning specialist, an assistant program coordinator, and two graduate assistants. In addition, the center's extended site is located in the Gossett Football Team House, and includes office space for three professional counselors and a 16-station desktop computer center.

Academic courses, programs and services offered by ASCDU include the following:

- Prospective student-athlete orientation
- Academic counseling
- NCAA academic eligibility monitoring
- Academic enrichment and career development presentations and workshops
- Accredited tutorial support
- Mentor program
- EDCP 108-J (Career decision making and planning)
- EDCP 108-K (College learning strategies and skills)
- UNIV 100/101 (First-year transitions to the university)

**Andrea Poag,**  
Academic Counselor,  
Women's Soccer

## Mission

The mission of the unit is (1) to provide quality developmental programs and need based services that will enhance the opportunity to earn an undergraduate degree, (2) offer career development opportunities and (3) support the psychosocial growth of student athletes through special initiatives.

## Staff

Nine full-time professionals, two graduate assistants, tutorial support staff and student associates comprise the unit's workforce.

## ASCDU & The University

Primary academic advising is provided by professional advisors assigned to each student athlete by his or her home college, school or department. The ASCDU counselors serve as an important support network that coordinates and implements transitional and developmental programs to address the academic and career development needs of student athletes. In cooperation with the Office of Records and Registration, ASCDU monitors academic progress of student athletes to assure that NCAA, ACC, and University rules and regulations are met.

## Location

The primary ASCDU unit is conveniently located on the ground floor of Cole Field House where student athletes have access to various resources and services. Each academic counselor has private office space in order to insure meeting privacy. A study table room is staffed by proctors and arranged to maximize student focus and concentration. The facility also houses a tutorial room devoted to servicing the learning needs of student athletes. The staff maintains two computer resource laboratories with a total of 40 personal computers containing up-to-date software packages. In addition, ASCDU coordinates a laptop computer service that provides each team access to laptop computers while traveling to away competitions.

There is also a satellite computer room in the Gossett Football Team House. Three of the nine ASCDU professionals are currently housed in the building.

## The Future

In the summer of 2002, the \$124 million Comcast Center will become the new home of the ASCDU unit. A 7,000 square foot wing has been developed to replace the current space in Cole Field House. The new home of ASCDU will be conveniently located on the floor where offices of coaches for 20 sports will also be placed. The close proximity was designed to facilitate communication among ASCDU staff, coaches and student athletes. The satellite computer lab in the Gossett Football Team House will continue to operate. In addition, a building addition of an auditorium which will seat 140 is currently planned for the Gossett Football Team House. That space will be available for use by the entire athletic program, including ASCDU.

## CHAMPS/Life Skills Programs

ASCDU houses the NCAA's (National Collegiate Athletic Association) **Challenging Athletes' Minds for Personal Success Program (C.H.A.M.P.S.)** and the NCAA **LIFE SKILLS Program**. The ASCDU staff, in collaboration with various other Department of Intercollegiate Athletics' units and campus resources, strives to provide a systematic personal development program designed to reach each student-athlete based on his or her individual needs. The focus of the program is on the individual academically, athletically, and emotionally, and on the changing needs and skills of that individual in the years during college and after graduation. The menu of presentations, workshops and seminars is a comprehensive and balanced system of "life learning" programs promoted for use by each varsity sport team.

# STRENGTH & CONDITIONING

In the highly competitive collegiate soccer world the off-field preparation of the student-athlete is a critical component to the on-field success of any Division I program. Dwight Galt, Maryland's director of strength and conditioning and Corliss White, who works with the women's soccer team, believe strongly that a solid off-field training program can dramatically improve levels of performance, as well as significantly reduce the chance of injury. The benefit of performing structured strength and power training throughout the entire year has allowed the Terps to reach new levels in physical development.

At the University of Maryland, the maximal development of athleticism is the primary goal of the strength and conditioning program. To accomplish this requires more than just strength and power training in the weight room. Speed improvement, agility, flexibility, conditioning, plyometrics, and nutrition also play critical roles. The Terps' strength staff places substantial emphasis on all these areas, with special attention on the improvement of speed potential. Galt and his staff employ a wide range of state-of-the-art training methods to assist in enhancing all aspects of speed development.

The Terps are fortunate to train in one of the premier weight training facilities in the nation. Conveniently located in the Gossett Team House, this facility has excellent aesthetic appeal, with two magnificent skylights and large windows overlooking the field at Byrd Stadium. The Terps' spacious weight room includes 7,200 square feet of functional floor space, with two elevated offices that are easily accessible to the training floor.

# MEDIA INFORMATION

## MEDIA GUIDELINES

**Credentials:** Media and photographer credentials for events at Maryland's Ludwig Field may be obtained by working press, radio and television by writing or calling Jason Yellin in the Maryland Athletic Media Relations Office, 1112 Cole Field House, College Park, MD 20741-0295. All requests should be submitted at least 48 hours prior to the event by phoning the Media Relations Office at (301) 314-7062. Since space is limited, accommodations are on a priority basis: daily newspapers and wire services, originating radio and television stations, national weekly or monthly publications, electronic media outlets, local and regional television crews. Priority is granted to members of the media who cover Maryland athletics on a regular basis, and to visiting media members. Photo passes will be issued only to accredited photographers on assignment.

**Photography Policy:** The Media Relations Office reserves the rights to revoke any photo credentials if the following standards are not upheld: all photographers must remain off the endlines, stay out of bench areas and remain at least five yards away from bench areas.

**Services:** The Media Relations Office will provide complete statistics at the conclusion of every home game. Programs containing rosters and event notes on each team will be provided for the working media.

**Fax Machine:** The Media Relations Office has one facsimile machine, located in Room 1112 of Cole Field House, which is available upon request. The fax number is (301) 314-9094.

### Mediateamlink.com

Releases, statistics and other sports information from all ACC schools as well as other conferences and institutions around the country are available by accessing [www.mediateamlink.com](http://www.mediateamlink.com). You can have updated documents delivered directly to your e-mail and/or fax machine the moment they are updated. You can also view documents on-line. MediaTeamlink is FREE to all accredited media. Log on to [www.mediateamlink.com](http://www.mediateamlink.com) if you do not already have an account, and click the "Sign Up Here" button and complete the short form.

**Terrapin Fan Phone:** For up-to-date reports, comments from coaches, and other Maryland athletic department information, phone the Terrapin Fan Phone at (301) 314-TERP.

**Terps on the Web:** For up-to-date game stories, statistics, schedules and results, and other Maryland athletic department information, please locate [www.umterps.com](http://www.umterps.com) on the Internet.
